GST	\$1,095
<b>TOTAL</b>	<b>\$12,045</b>

The following tips will help you prepare accurate and thorough quotes for the Esperance Energy Transition Plan. If you'd like to send us a sample quote before sending your first one to a customer, please feel free to do so. We'll review and check that all required information is in place to ensure prompt processing of the quote. Please add 'Sample Quote' to the subject line and send your email to:

**Esperance-etc@horizonpower.com.au**

## Quote preparation tips

To ensure we can process the customer funding application as quickly as possible, please follow the steps below:

- ✓ Ensure your quote is clearly itemised, providing as much detail as possible
- ✓ List any non-standard installation costs separately in the space provided under 'Additional works' on the quote form
- ✓ Include the make and model of each appliance to be removed, along with a photo of each (this will help us determine the applicant's funding level)
- ✓ Include the make and model of each appliance that is being installed (include supply cost and standard installation costs)
  - Please provide as much detail as possible (e.g., 2 burner induction vs 2 burner electric)
- ✓ Please provide your completed quote to the residential customer (not to Horizon Power). Customers should then include the quote as part of their online application to Horizon Power for funding.

As a final reminder to ensure the process runs smoothly, please remember lump sum quotes cannot be assessed and will cause delay in approval.

As always, our team is here to help address any concerns or questions along the way. Contact our Esperance team at **08 9072 3400** or send us an email at **Esperance-etc@horizonpower.com.au** and we'll ensure you get a reply as soon as possible.
